

THAD TOUPS

OWNER / PRESIDENT

JOB EXPERIENCES

- **HAAS PETROLEUM ENGINEERING SERVICES, INC.**

Dallas, Texas

PRESIDENT / 2014-PRESENT

Licensed professional engineer actively involved in nearly all aspects of the independent evaluation company. His primary role is to ensure that each deliverable from the firm meets the highest standards of excellence. Thad continues to pursue best practices through new technologies and data analytics and is considered a key resource for his industry contribution.

DIRECTOR OF ENGINEERING / 2010–2013

Petroleum Engineer that managed a team of engineers, geologists, and supporting staff to facilitate the execution of all project tasks in accordance with best practices and the client's needs. Thad directed the entire job cycle for each assigned project including working with customers on scope, deliverables, budget, and timing.

SENIOR ENGINEER / 2004-2009

Reservoir Engineer that performed reserves calculations and documentation for oil and gas appraisals. Thad was responsible for estimation and certification of reserves in accordance with industry guidelines using probabilistic and deterministic methodologies.

- **CITGO PETROLEUM CORPORATION**

Corpus Christi, Texas

PROCESS ENGINEER / 2003–2004

Process Engineer for facility's Sulfur Recovery and Amine Treating Units. Thad was responsible for reporting, optimization, and capital expenditures for the units.
